

# Our most configurable, easily upgradeable point-of-sale terminal

**PAR Helix fits where you want it, supports the way  
you serve guests, and grows with your business**

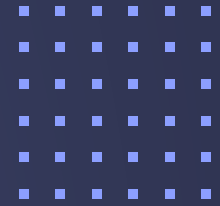

- Lightweight, durable, and versatile
- Articulated mounting arm and adjustable stand adapt to several environments
- Easy access to ports with clean cable management
- Proven in a wide range of concepts and the most demanding hospitality conditions
- Sleek form factor looks attractive and maximizes precious counter space

# Lower the barrier between staff and guests

A highly adjustable stand and support arm remove the technology barrier by enabling nearly limitless configurations to support how your brand serves guests

- Versatile configurations avoid clutter at the counter
- Wall mount or counter mount options work with your unique store layout
- Your choice of customer-facing display screen size to engage with guests how you want

# Swappable CPU and robust, expandable I/O make Helix future-ready and easy to upgrade

Keep up with evolving technology and service models, and restore a terminal to service quickly with a simple swap-out of the CPU

### PAR Helix POS Terminal is only part of what we offer.

PAR Technology offers every tech a restaurant could ever need, front to back. You'll find hardware, software, ordering, kitchen management, operations, guest loyalty & engagement, and so much more. Plus, our solutions 'play nice' with other providers' solutions, so you can keep using the software that works for you, your team, and your restaurants. Working with one vendor for all your needs means you can focus on giving your guests great food and awesome experiences.
