

Embrace Mobility

PAR Hardware enhance the guest experience by maximizing a brand's flexibility to dynamically support business priorities, whether that's a backup POS terminal, self-service kiosk with payment, or mobile line-busting solution.

Flexibility Designed for Growth

- Easily transform from handheld mode into a countertop terminal using the optional docking station
- What crunch time? Bust through lines, offering guests a range of payment options that include NFC/RFID for quick and secure mobile payment processing
- Built-in front- and back-facing cameras can capture QR codes and bar codes useful for scanning loyalty tokens, payment wallets, and coupons
- Maximize your service options with a range of peripherals including printers, cash drawers, and payment hardware

Rugged and Ready to Go

- Industrial-grade durability with Gorilla® Glass scratch-resistant screens and a 3-foot drop rating (up to 6-foot with optional Tablet Shield)
- Outdoors-ready with a readable screen, Wi-Fi, and IP65 dust-protected and water resistant
- Bright 800nit Projected Capacitive Touch (PCAP) screen
- Powerful Intel® Atom processor to maximize efficiency
- Quad Tablet Chargers so tablets are ready to roam when you are
- Built-in NFC supports mobile contactless payments if configured with the payment processor
