

Hardware

EverServ® 650

The next generation of hardware terminals just got better.

Day in and day out, restaurant operators trust the EverServ® 650 Series to handle their most demanding tasks.

Running on Windows 10 with a new generation widescreen display, the 650 Series features expandable memory and plenty of storage to get through peak hours with ease.

Features & Configurations

The EverServ® 650 runs SmartClock and NEWPOS, but with more memory, storage, and processing power for higher performance. It comes standard with the following configurations to meet the unique needs of your restaurant:

Versatile Design

- Clutter-free, minimalistic aesthetic
- Hidden, easily accessible cords and ports
- Ideal for both multi-chain concepts & small businesses

Adaptable to Any Environment

- Pedestal available for use on any surface
